**Report on ICT Skill (2019-2020)**

In today's 21st century, it is the necessity of everyone to know about Information Communication Technology. In today's technological era teachers must use technology for teaching and learning.

In order to know the basic technical knowledge of the students, the students are enlightened about ICT through the teachers of the college. Students are asked to run the computer in front of the teachers to know their level of computer knowledge at the time of admission.

Students who do not have access computers are also taught some basics on mobile. For example: Creating a PPT, Word file or Excel sheet through an app like Microsoft Office etc. These things are also explained to the students from teachers.

ICT is used in important subjects like making PPTs of core subjects as well as making posters of optional subjects and technology based lesson planning under B.Ed. curriculum.

Thus all the students are guided to Use ICT by keeping in mind the basic knowledge of the students regarding the ICT subject.
