Subject: Proposal for collaborative Internship Program

Pratham Education Foundation aims to help every child and young person learn well and reach their potential. For over twenty-five years, our mission, "Every Child in School & Learning Well," has been our guiding principle.

It is with great enthusiasm that we present a collaborative Internship Program, meticulously tailored for the students of Kantilal Khinwasara B Ed College, offering them an opportunity to engage with children and actively contribute to the future of education. This proposed internship is an integral component of the Pratham Creativity Club program, specifically structured to enable children and youth to acquire creative skills in an open learning environment.

Our objective through this internship program is to facilitate a connection between college students and children aged 10 to 14, fostering a creative exchange. This will include in-person workshops for children conducted by college students in collaboration with Pratham.

The Internship aims to offer:

- Exposure to diverse creative learning opportunities
- A platform for interaction and idea exchange
- Professional guidance and mentorship for children

Process: College students will undergo a selection process based on their areas of interest, enabling them to opt for either hybrid or online internship modes. Upon selection, they will be matched with specific groups of children for an in-person workshop curated by Pratham. Alternatively, if their choice is for an online internship, they will be engaged in an online task involving the analysis of digital artefacts or materials

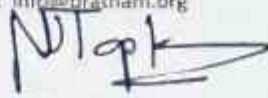

Duration: 2 to 3 months

Benefits for college students:

- Gaining insights into the future landscape of education, particularly focusing on the National Education Policy 2020 and its global relevance.
- Acquiring practical insights into their chosen fields.
- Engaging in interactions with children, fostering an understanding of the needs within the education system.
- Contributing to the development of 21st-century skills among children.
